Subject:

Final Closing Contract Proposal,

Contract LG-5005

Dear Sir:

Attached for your consideration is Hycon Mfg. Company's Final Closing Proposal for Contract LG-5005.

This proposal consists of this letter and the following exhibits:

Exhibit A.

Proposed Final Cost and Fee

Exhibit B.

Disposition of Deliverable Contract Items

Exhibit C.

Patent Disclosure

Exhibit D.

Residual Material '

Exhibit E.

Tooling /

Hycon Mfg. Company is prepared to enter negotiation of the final contract cost and fee at your earliest convenience.

Very truly yours,

STATINTL

HYCON MFG. COMPANY

EXHIBIT D

CONTRACT LG-5005

RESIDUAL AND SCRAP MATERIALS

Attachments I and II to this exhibit make up the total residual inventory under the subject contract. These attachments reflect the results of a physical inventory which was initiated to satisfy the contract requirement.

Attachment I includes those parts which are useable within the system. It is requested that the accountability for these parts be transferred to Contract O-TM-5002 and held in Bonded Stores for M & O requirements.

Attachment II includes those parts which are obsolete within the system. It is requested that the accountability for these parts be transferred to Contract O-TM-5002 and the contractor will then request the Depot to include these parts on a scrap report.

In arriving at the contract value for all residual material, the purchase order cost for each item was extended by the overhead and G & A rates in effect at the time the materials were received.

Attachment III includes those parts on which the contractor received Depot authorization to scrap.
